

LIST OF PERSONS CONTRIBUTING TO MILITARIZATION OF EDUCATIONAL SPACE OF CRIMEA AND ELIMINATION OF NATIONAL IDENTITY OF CHILDREN – CITIZENS OF UKRAINE

Since February 2014 a part of Ukraine, the Autonomous Republic of Crimea and City of Sevastopol, have been occupied by the Russian Federation. After the occupation the education system of the peninsula has become one of the key tools for the subjection of the civilian population and the militarization of the citizens of Ukraine. The main goals of "patriotic education" in Crimea – are the elimination of the Ukrainian and Crimean Tatar identity of Crimean children and the formation of their identity as a "universal Russian citizen".

In order to draw attention to these mass violations and prevent them in the future, persons, representatives of the occupying power and the education sector of the Crimean Peninsula, whose actions have led or continue to promote developing the cult of war, violence, perception of Ukraine and Western countries as enemies, tolerance for crimes of the Soviet government, distortion of facts about events in Ukraine, forcing on the myth 'on a voluntary choice of Crimeans in 2014', etc. in the conscience of Crimean children, have been listed.
